## Ducted Unit

Slimmest yet most powerful medium static pressure unit on the market

This ultra-slim ducted unit delivers high performance in a compact, discreet package — ideal for ceiling spaces with limited room. It runs quietly, adapts to your layout, and keeps each area perfectly comfortable, all while staying hidden behind the ceiling. With customisable airflow and multi-zone options, it's a smart solution for stylish, flexible spaces.

### Slimmest in class for tight ceiling voids

With a built-in height of just 300mm, this is the slimmest unit in its class — making it ideal for renovation projects or buildings with narrow ceiling voids. It fits where others can't, without compromising on performance.

### Quiet operation for undisturbed spaces

Operating as low as 25dB(A), this system is designed to run quietly in the background. It's perfect for offices, bedrooms, meeting rooms, or any setting where peace and concentration matter.

### Consistent airflow across every space

With external static pressure up to 150Pa, this unit supports a wide range of duct lengths and layouts. That means reliable air distribution, even in larger or more complex spaces.

### Optimised airflow, tailored to your needs

Air volume and pressure settings can be easily adjusted via a wired controller, allowing fine-tuning of airflow based on room size, layout, or usage. Comfort can be personalised without needing complex adjustments.

### Discreet ceiling integration

Once installed, only the suction and discharge grilles are visible, keeping your ceiling clean and uncluttered. It's an ideal solution for maintaining minimalist aesthetics in stylish interiors or professional settings.

### Flexible installation, faster setup

The unit offers rear or bottom air suction, with the option to connect custom suction grilles. Combined with a built-in drain pump with 625mm lift, this flexibility speeds up installation and expands where the unit can be placed.
